

An illustration of four diverse students (three girls and one boy) looking at their smartphones. They are standing in front of a large, classical-style school building with a clock tower. The scene is set outdoors with trees and flowers. The image has a soft, warm color palette and a slightly faded background.

The Challenge

Challenge

Parents receive numerous emails from schools about different events and programs

Gap

Information is scattered across emails, making it hard to remember and find specific details

Barrier

No centralized way to search through all school-related communications

Need

Simple way to ask questions and get answers about school events

Impact

Parents miss important events/programs/assignments or spend too much time searching

Our Answer

Solution Overview

Approach

AI-powered chat application where parents can ask questions naturally

Method

Smart system that searches multiple sources: local files, Gmail, and web

Focus

Ask anything like "What karate classes are available?" and get instant answers

Delivery

User-friendly chat interface with real-time responses

Outcome

Find school related information in seconds, not minutes or hours

Technology Stack

AI Platform

OpenAI GPT-4 for intelligent responses

Search System

Multi-agent setup (Local Database + Gmail + Web Search)

Backend

Python with FastAPI, Quadrant, Langgraph, RAGAS etc

Frontend

React web application

Data Storage

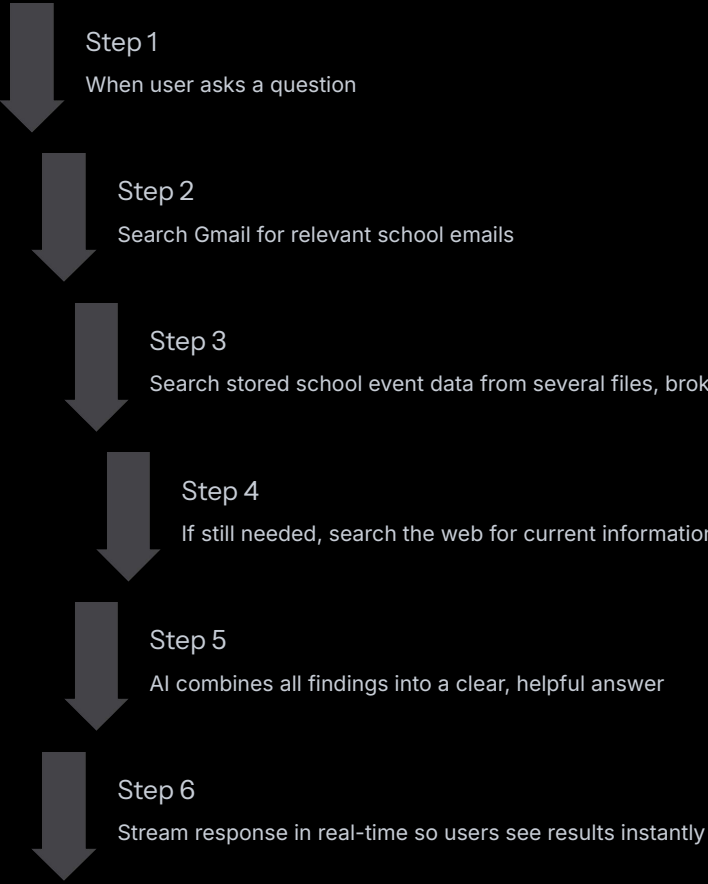

Vector database for fast semantic search

Evaluation

RAGAS framework to measure quality

How We Solve It

1. Chess Tournament Follow-up (September 23, 2024)

From: David Baird

Summary: A wrap-up of the September 14 chess tournament, highlighting it as the largest event to date.

Details: Final standings were posted online, and custom Round-Robin 100 Chess branded boards are now available for sale. For upcoming tournaments and registration, visit the chess site.

2. PSE Newsletter Edited with Additions (October 21, 2024)

From: Lacey Clark-Lift

Summary: This newsletter includes various updates, including information about school events and programs.

Details: Specific details about chess programs were not included in the previous, but the newsletter may contain relevant information.
